Rock Creek Railway Bill Approved by the Commissioners.

WATER METERS A PROBABILITY

Central Relief Committee Permanently Organized-Mr. B. H. Warner Elected President-Senate Joint Resolution for Relief of District Poor Favorably Reported by the Commissioners Orders Issued.

H. R. bill 8337, relative to the Rock Creek Railway Company, was returned yesterday by the Commissioners, with favorable indorsement, to the House District Committee with a slight amendment.

The bill provides that the rallway company may contract with any street railway company owning or operating a connecting line for the joint management, lease or purchase of such connecting line, with the privilege of any necessary increase of capital stock not to exceed actual consideration paid. Provision is made that but one legal fare shall be charged for a single continuous ride in the District over all the lines affected by such contract.

The company is also authorized, if deemed advisable after such an arrangement shall be perfected, to change the name of the corporation to the "Capitol Traction Company."

The District Commissioners are so concerned about the waste of water from one cause and another that they have as a means of protection decided to require the use of meters by large business houses and manufactories, and probably thereafter they will extend the requirment to householders.

That the introduction of the meters will eause a great deal of dissatisfaction and opposition is not questioned. The cost of the introduction will be upon the users of the meters, and the additional tax will be a con-

Engineer Commissioner Powell has the task upon him of devising ways and means for the increase of the water smolly, and is giving to it no little of his time. He attributes the searcity largely to waste, but concedes that the capacity of the distributing reservoir is limited and says that additional facilities to meet the constantly increasing demands are also utily necessary.

Tresident Roses said vesterday that the matter is being considered by the engineer department, and that he could give to information as to the measures in contemplation.

mation as to the measures in contemplation to increase the water supply, but that the question would doubtless be considered in board meeting at an early date. Engineer Commissioner Powell yesterday

approved the recommendation of Superin-tendent Hayden, of the water department, incorsed by Assistant Engineer Commissioner Burr, that \$40,000 be taken from the water found for the purpose of continuing the exten-sion of the high-service system of water distribution, in compliance with the provisions of the act of Congress, approved August 7,

The central relief committee of fifteen, reecally appointed by the Commissioners to serve in conjunction with the charitable ornucleations of the city, met yesterday in the dies of Commissioner Powell at the District office of Commissioner Fowell at the District building. At the request of the Commission-ers tol. John Tracy called the commission-order, expressed the thanks of the board for the prompt acceptance, and took occasion to re-uest to be relieved from more active work in connection with the commistee's duties than can be accomplished

The committee then permanently organized by the election of the following officers: President, R. H. Warner; vice president, Miss H. B. Loring, severtary, I. S. Emery and treasurer, Beriah Wikins. It was aunounced that a room to serve as a deput of surplies can be obtained in the Central Union Mission building, and the same was accepted with thanks to the management.

The president was authorized by resolution to appoint a committee, consisting of himself as chairman and four others, to map out a plan of relief work and to make report at

plan of rener work and to make report at the next meeting.

The committee adjourned to meet in Justice Code's private room at city hall next Tues-day affection at 3 o'clock.

The judge tendered the use of his room as a permanent place of meeting, which was

ac epted.

Mesers, R. H. Warner, C. G. Cenn, Beriah Wilkins, Lawrence Gardner, James W. Somerville, and Dr. Eitchie were unable to ATTEND THE MEETING.

There is trouble ahead for certain District railways that have not been sufficiently re-gardul of the requirements of their charters. It is understood that an order will be issued by the Commissioners that will completely cover these cases, and that there will be no further toleration of dereliction. Society amused itself and was entertained on both sides of the footlights that night at Metzerott Hall. The entertainment was a game of whist,

REPRESENTED BY LIVING PERSONAGES. The players were Admiral Upshur, Mr. Luquer, Major Goolee and Dr. Francis S.

Nash.

The programme was opened by Major Goodice, who introduced Mr.G. E. Wendling. Mr. Wendling made a brief address, in which he spoke of the circumstances by which the Y. W. C. H. was first brought into public notice in Washington, and what it has accomplished since 1891.

Then followed a poetical prologue by Gen. Greely. The announcement was then made that the pack would enter, and in a few moments the whole gorgeous train of court and spot cards entered to the strains of Somer's concert overture.

concert overture.

The costumes of the kings, queens and jacks were especially rich and handsome, the idea being to represent the costumes so familiar on those personages on the playing cards. The joker was dressed in the colors of the rainbow, and followed in some degree the motiey raiment of the king's jester.

The court costumes of the kings, queens, and jacks was accented by the costumes of the characteristics.

and nexts was accented by the costumes of the other cards, the spades wearing yellow gowns ornamented with black velvet spots, hearts in white gowns with red spots, clubs in red gowns with black spots, and diamonds in blue gowns with red spots. The men rep-resenting the plain cards were evening suits of black with sashes across their breasts orna-mented with the regulation spots to designate mented with the regulation spots to designate them. The cestumes of the aces, all of them personated by young ladies, gave an addi-tional variety to the

SPECTACULAR EFFECT. The ace of clubs were a gown of white ornamented in the front with a large club in black velvet; the ace of hearts, white satin with scarlet heart; the ace of diamonds, yel-low satin with scarlet diamon I near the hem of the gown directly in front, and the ace of of the gown directly in ront, and the ace of spades a white gown with black velvet spade.

The game opened with a grand procession of the royal personages and the spots, who entered and ranged themselves in two columns, one on each side of the stage. After some royal saluting, there was a march in which modern military evolutions played a part, and then came the shuffle. This brought about the most picturesque scene of the evening, and produced a beautiful kaleidescopic effect. Then the combatants were "cut" by the waving of a flag among the muti-colored assemblage, and then the "deal" came by which the cards were ranged in two ranks and on each side of the stage in two ranks and on each side of the stage.

The first play was made by Admiral
Upsbur, at whose invitation the deuce of
hearts. Miss Wainwright, stepped out
into the charmed circle. This was the
signal for applause, and applause was
the rule all through the evening. Every
beauty and gallant had "friends" in the audience, and favors and flowers rained in
showers from the beginning to the end of the
game.
